COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Sir:

Applicant gratefully notes the allowance of Claims 23-48 in the present application. Applicant, however, believes that the Statement of Reasons for Allowance in this case is improper as it merely copies each limitation of independent Claim 23 into the reason for allowance. While Applicant believes that the claims are allowable, Applicant does not acquiesce that patentability resides solely in each identified feature or combination of features, exactly as expressed by the Examiner, or that each feature or combination of features identified is required for patentability, or that equivalents of any of the recited features are outside the scope of the claims. Moreover, to the extent

the Reasons For Allowance do not separately address the additional subject matter of remaining Claims 24-48, Applicant does not acquiesce to any inference that these claims do not present patentable subject matter independent of the patentability of Claim 23.

Respectfully submitted,

Dated: February 10, 2005
